EXCELLENCE

"Striving for perfection" is the slogan that we have been guided by since 1992 and which has turned us from a sole trade and service company into one of the largest leaders in the syrup industry in Poland. We believe in development, constant changes and implementation of solutions that systematically improve the company's operations at every stage. From the very beginning, we focused on unique recipes and qualified employees. We constantly invest in machinery, modern devices and innovative technologies that allow us to implement new products and improve their quality.

Excellence company is based on the production of syrups and juices, but by analyzing and meeting market needs, we also introduce drinks from other segments. Aware of the ecological situation in the world, we respond to customer needs who buy wisely, carefully and choose what is natural, healthy and valuable. This is why and how the BIO product line was created. It's juices, drinks and mousses full of fruit and vegetables obtained from organic farms.

In the portfolio, in addition to a wide range of BIO products, you can find refreshing drinks made of exotic fruits with chia seeds - "Biorę!", traditional, healthy and gastronomy syrups, as well as a professional line of barman and coffee syrups. However, we have not said the last word - our offer is constantly expanding, and new products are successively introduced to our customers. They can be found in the largest store chains throughout Poland. We also successfully cooperate with foreign partners. In addition to Europe, Excellence products can be found on store shelves in the USA and Canada, as well as in distant Mongolia and Iran.

Reach for more with us!

Welcome to the world of syrups, juices and drinks.

The logo for Excellence features the word "EXCELLENCE" in white, uppercase, sans-serif font, centered within a dark blue rectangular bar. Above and below the bar are green geometric shapes resembling stylized diamonds or chevrons, pointing towards the center.

# I AM BIO - JUICES AND SYRUPS

We naturally reach for more!

Ecological products are a natural choice for us. The "I am Bio" series is a wide range of BIO juices created for customers who reach for the best of nature. BIO juices are made carefully from fruit and vegetables from certified organic farms. We focus on quality, taste and nature. The "I am Bio" series also includes syrups that are perfect as a substitute for white sugar.
