EXCELLENCE

"Striving for perfection" is the slogan that we have been guided by since 1992. This motto has turned us from a one-man sales and service company into one of the largest producers in the syrup segment in Poland. In order to meet the growing expectations of consumers, we are constantly working to implement solutions that systematically improve the company's operations at every stage. Since the Company's inception, we have relied on unique formulas and qualified employees. We continuously invest in machinery, modern equipment and innovative technologies that allow us to implement new product lines and improve their quality.

Excellence company is based on the production of syrups and juices. With our motto in mind, we analyse changing trends and meet the needs of the market. As a result, we also introduce articles from other segments. Aware of the ecological situation in the world, we respond to customer needs who buy wisely, carefully and choose what is natural, healthy and valuable. This is why and how the BIO product line was created. It's juices, drinks and mousses full of fruit and vegetables obtained from organic farms.

In addition to a wide range of BIO products, the portfolio includes refreshing drinks made from exotic fruits with chia seeds – „Biorę!”, traditional, pro-health syrups and gastronomic products, as well as a professional line of barman and coffee syrups. However, we have not said our last word yet - our offer is constantly expanding, and new products are successively introduced to our customers. They can be found in the shops of the largest retail chains throughout Poland. We also successfully cooperate with foreign partners. In addition to Europe, products made by Excellence can be found on the shelves of EU countries, the USA, Canada and in faraway Mongolia.

Welcome to the world of syrups, juices and drinks.

The logo for Excellence features the word "EXCELLENCE" in white, uppercase, sans-serif font, centered within a dark blue horizontal rectangle. A green diamond shape is positioned behind the rectangle, with its points extending slightly beyond the top and bottom edges of the blue bar.

# YA! & SODA

## INSTANT REFRESHMENT

YA! & SODA is a series of products with a high concentration of flavours that create tasty and refreshing drinks when diluted with water. They are widely used both in households and in gastronomy.

High concentration closely linked to efficiency, ease of storage, versatility and economy make our concentrates unique. In addition, a convenient measuring cup allows the preparation of beverages of different capacities (250ml - 1L), making this activity trivial. Up to 10 litres of ready-to-drink beverage can be made from a single bottle of concentrate, reducing the generation of plastic waste and helping to care for the environment.

Concentrates are dedicated to make a tasty beverages in a quick and easy way, both at home and in professional kitchens or bars.

# YA! & SODA LIGHT

## DIETARY SERIES – NO SUGAR

YA! & SODA LIGHT is a series of products that, when diluted with water, create tasty and low-calorie beverages. They are a great alternative to traditional beverages, allowing you to enjoy your favourite flavours without the unnecessary calories. The product has no energy value and contains no sugars.

Low calories, no sugars, rich flavour, versatility, ease of preparation thanks to a convenient measuring cup and economy make our concentrates unique. Up to 10 litres of ready-to-drink beverage can be made from a single bottle of concentrate, reducing the generation of plastic waste and helping to care for the environment.

Light concentrates are an excellent choice for people who want to enjoy their favourite beverages without worrying about extra calories.
